FOREWARD

THE 'PEAK' HERD

The Peak Herd was founded in 1989 by Bob and Mary Furness due to the fact that they went out of dairying and were very keen on primestock showing and that it was the Limousin breed that was doing all the winning.

During the early 90's some showing was done with great success with Bob and Mary present at all the county shows for miles around.

Laneside Farm, the home of the PEAK herd is in the heart of the PEAK FOREST with much of the land over 1000ft above sea level. These cattle presented to you are of a very hardy nature. They are also all cubicle housed.

Over the years, the Furness' have purchased top quality Bulls and semen and have had a policy to cull any animal that is not docile.

The two most recent stock bulls used have been ROUGHLEY VANDYKE by GRAHAMS SAMSON and out of the show cow ROUGHLEY LOCKET and most recently the Champeval bred SULTAN by NINO out of JOLIFLEUR (please see extended pedigrees within this catalogue)

The Peak herd is reluctantly being vastly reduced due to the fact that Bob and Mary are going to take it a little easier, however they will remain very much interested and involved with the Limousin breed as they are retaining a handful of older Cows and a couple of two year old Heifers.

The herd is from a 1 year TB testing parish although there has never been a case of TB on the farm. The herd has had a TB test on the 26th January 2010 which was clear.

As you will see, the herd is exceptionally fertile by their calving history and the PD's shown were conducted by the vet on 26th January.

Please note all last years calves were weaned in the Autumn of 2009 for the buyers interest the cow and calf will be penned and put in the ring together the cow being sold first and then the calf.

The herd has never had a case of JOHNES.

We wholeheartedly recommend the cattle in this catalogue to prospective purchasers and we welcome you to Newark on the 24th.
